PROFESSIONAL EXPERIENCE

Senior Product Designer | Aug 2025 - Present

Sunbelt Rentals (E-commerce rental company)

- Led the redesign of the rental management flow **using AI agents from product discovery to full rollout** for 40K+ users, boosting customer retention in a fast-paced roadmap.
- Partnered with Product and Engineering to **define a 2-year UX vision** informed by customer needs and user feedback.
- Shipped 10+ high-impact features, delivering responsive iOS and web experiences aligned with WCAG accessibility standards that increased task completion by 40%.

Product Designer | May 2024 - May 2025 (Contract)

Tenon (Series A startup for marketing automation)

- Owned the **0→1 product design for an AI-powered B2B SaaS platform**, driving early customer adoption and supporting a \$329K enterprise sale.
- Defined UX prioritization strategies using customer and business insights across 4 cross-functional teams, **streamlining the startup design culture**.
- Optimized Figma design-to-developer hand-off, improving feature release efficiency by 20% in a fast-paced setup.

UX Designer & Researcher | Aug 2023 - May 2025

Indiana University (Healthcare & conversational AI design)

- **Led mixed-method UX research**, conducting 19 in-depth interviews to identify actionable user insights.
- Facilitated design reviews and documented 50+ action items for the roadmap.

User Experience Designer | Nov 2021 - Jul 2023

Globant (Global IT and software development company)

- Redesigned the information architecture for a B2B SaaS using high-fidelity wireframes, reducing drop-offs by 55%.
- Improved usability by A/B testing 5 key user flows for 25K+ users.

Founding UI/UX Product Designer | Jul 2020 - Nov 2021

Wipro Linecraft AI (IoT startup for an AI analytics enterprise platform)

- Owned **end-to-end product designs from concept testing to launch**, resulting in 5 new client acquisitions.
- Led agile sprints for 15 months, managing the design and research operations to align processes in the startup.
- Created a competitive research repository and identified 12 user personas through ethnographic research.
- **Built and scaled a foundational design system** used across 30+ cross-functional stakeholders.
